WORK EXPERIENCE

Software Associate

SNS Innovation Hub

07/2024 - Present

Coimbatore

Areas Worked on

- Developed **Nomantify**, an AI-powered platform for employee engagement, using **Next.js**, React, and Node.js, transforming user feedback into actionable insights.
- Designed and integrated **secure, scalable REST APIs**, improving backend maintainability and performance.
- Collaborated closely with product managers and designers to build and iterate on key features based on user feedback.
- Integrated **AI-based analytics pipelines**, visualizing engagement metrics in real time.
- Worked on **calendar and messaging automation tools**, including email and YouTube comment response automation.
- Improved deployment speed using **CI/CD pipelines (Docker + GitHub Actions)** and optimized **PostgreSQL** and **MongoDB** queries.

Web developer Intern

Accent Techno Soft

02/2024 - 05/2024

Coimbatore

Areas Worked on

- Contributed to front-end development using HTML, CSS, and JavaScript, and gained hands-on experience with frameworks like React
- Assisted in creating and integrating RESTful APIs for dynamic data rendering and implemented features that improved user functionality and engagement
- Debugged and resolved front-end and back-end issues, ensuring smooth application functionality

EDUCATION

B.E Computer Science & Engineering

SNS College of Technology
